

iMin K1

KDS

- In order to be more reliable and durable, K1 is specially designed with oil and smoke proof.
- 21.5" large display screen, wider vision and brighter colours.
- Feel free to operate with multi-touch screen.
- 100M network cable interface, instant communication without lagging.

KDS subverts the traditional kitchen operating mode. After set up a KDS device in the kitchen, the KDS will receive the orders at the moment when the POS complete the order. When the kitchen finish cooking, It will confirm that each order has been completed. The delivery will be confirmed too by the server to avoid missing orders. It is convenient for chefs to plan their dishes reasonably according to the order and the types of dishes, So as to improve the working efficiency of kitchen.
